

THE RIGHT TO FEEL SAFE

ABOUT THE WORKSHOP

This workshop is a must for all parents and carers. This comprehensive training workshop has been designed to teach parents the content of the internationally acclaimed Protective Behaviours Child Safety Program in order to increase their children's personal safety. There are many ways of talking to children about their personal safety and when we do so it is important that we do not scare them or leave them feeling unsafe, afraid or dis-empowered.

As a safety program, Protective Behaviours provides children with strategies to keep themselves safe and cope with situations that threaten their well being such as bullying, child abuse and domestic violence. The program empowers the individual with the right to feel safe and sets out ways in which they can gain the appropriate help when they are not feeling safe.

THE PURPOSE OF THIS WORKSHOP IS TO :

- Provide parents and carers with a basic understanding of child sexual abuse and other unsafe situations
- Provide specific personal safety training skills, techniques and examples to use with your children
- Lesson your anxiety about your children's safety so you can allow them the freedom of movement they need as they grow up.

To secure your place on this workshop please complete and return the attached registration form .
